

ABOUT

In the heart of the textile world, where cotton fields stretch beneath the sun, TMC weaves its story. For 30 years, this story has grown, thread by thread, from the fertile land of Pakistan, where the finest cotton blooms.

TMC is like a flower, with daughter companies as its petals, stretching across the globe, all bound by a shared vision of quality, sustainability, and innovation. Within the bustling mills, where cotton turns to thread and thread into yarn, every process is a dance of excellence. The warehouses, filled with vibrant textiles, are the proud result of TMC's dedication to diligence and care.

But the true spirit of TMC is its people. Their hands weave, their voices collaborate, and their minds envision a more sustainable future. TMC's commitment to being environmentally responsible drives them to adopt green practices and reduce their footprint, ensuring the beauty of their textiles doesn't harm the Earth.

Through partnerships and collaboration, TMC grows stronger, like a well-crafted fabric that's both durable and flexible. The company believes in teamwork and cherishes the relationships that make them whole.

For Earth and Earthlings!

COTTON

Our premium cotton yarn and fiber are breathable, durable, and ethically sourced, perfect for natural comfort and style in garments, home textiles, and accessories.

LINEN

Our linen yarn collection — timeless elegance with natural texture, breathability, and durability. Eco-friendly and sustainably sourced, perfect for creating sophisticated apparel, home linens, and accessories.

HEMP

Our bamboo yarn — luxuriously soft, sustainable, and versatile. Responsibly sourced and eco-friendly, it offers breathability and moisture-wicking properties, perfect for stylish, comfortable apparel, accessories, and home textiles.

BAMBOO

Our hemp yarn and fiber collection — durable, sustainable, and versatile. Robust and resilient, hemp is perfect for eco-conscious apparel, accessories, and home textiles. Grown without pesticides, its breathable, antimicrobial properties offer natural comfort with a rugged yet refined aesthetic.

WOOL

Our wool yarn collection — warm, durable, and naturally beautiful. With insulating properties and quick-drying comfort, our ethically sourced and sustainably produced wool supports animal welfare and environmental responsibility. Perfect for cozy sweaters, blankets, and accessories, it offers timeless style and lasting quality.

RG YARNS

Our RG yarns — innovative, sustainable, and high-performing. Made from recycled fibers, they offer strength, durability, and colorfastness. Perfect for apparel, home textiles, and technical fabrics, RG yarns are ideal for eco-conscious designers seeking quality without environmental compromise.

Discover TMC's nylon yarn—a powerhouse of strength, elasticity, and abrasion resistance. Perfect for activewear, swimwear, lingerie, and outdoor gear needing durability and quick-drying capabilities.

POLYESTER

Explore TMC's polyester yarn—durable, versatile, and vibrant. Ideal for sportswear, outdoor gear, upholstery, and home textiles.

Textured
by Design

BLENDED YARN

TMC's blended yarn combines multiple fibers for unique textures, enhanced performance, and customizable versatility.

STRETCH YARN

TMC's stretch yarn provides elasticity and flexibility for comfortable, easy-moving textiles and garments. It stretches and recovers without losing shape, adapting to body movements for a snug fit.

SLUB AND INJECTION YARNS

TMC's slub and injection yarns feature irregular thick and thin sections, adding visual interest to textiles and garments creating a textured, tactile surface enhancing aesthetic appeal, offering design versatility for effects ranging from subtle to bold. Ideal for artisanal textiles, casual apparel, and fashion-forward garments.

MERCERIZED YARN

TMC's mercerized yarn undergoes a special process to enhance luster, strength, and dye uptake, resulting in a vibrant silky sheen, making it perfect for high-quality textiles and garments.

FILAMENT YARN

TMC's filament yarn features continuous synthetic fibers for consistent quality and a sleek, polished look.

DYED YARNS

TMC's dyed yarns, available in vibrant colors, are perfect for colorful textiles and garments. Colorfast and long-lasting, they can be custom dyed for unique mixtures.

MELANGES YARN

TMC's melanges yarn features a blend of differently colored fibers, resulting in a unique speckled appearance adding depth and dimension. The subtle variation in color creates visual interest, enhancing the overall aesthetic appeal of the finished product. This versatile yarn can be used alone or blended with others to create custom effects and color combinations.

The background of the entire image is a dense, repeating pattern of various mechanical fasteners. These include hexagonal nuts, cylindrical bolts with threaded shafts, and flat circular washers. The parts are rendered in a simple, clean line-art style with some cross-hatching to indicate depth and texture. They are scattered across the entire frame in different orientations and positions.

Engineered
